**Subject:** H 2741

Dear Representative Keenan, Senator Downing and members of the Committee on Telecommunications, Utilities and Energy:

I ask you to not support House Bill 2741 . The Mass Energy is part of the Oilheat Save Energy Coalition brought this bill to my attention in the hopes of encouraging me to offer my support for the bill. I feel the commonwealth does not need additional taxes to subsidize upgrades that are likely already being covered by programs like Mass Save.

In addition this bill creates more bureaucracy (EEAC) which is something the state has enough of.

Sincerely,  
Mark Burke
