Testimony

My name is Peggy Burke and I live at 62 Clarissa Joseph Road in Plymouth. I am here today to urge you to oppose Senate Bill 1591 and House Bill 2980. I agree completely with my senator, Senate President Therese Murray, that industrial wind turbines do not belong among the residences of Massachusetts. Also, I believe like myself, Senator Murray is a proponent of local self determination. As a final statement I would just like to say that neither of these bills address Native American rights or their sacred places.

Thank You.

Peggy (Margaret) Burke
